Chemistry Laboratory Safety Agreement

Anytime I am working in or visiting the laboratory, I will follow the laboratory Safety practices recommended in Laboratory Safety and Work Instructions and take the following precautions.

1. Wear splashproof goggles or glasses at all times.
2. Know the exact location and operation of all safety equipment.
3. Never work alone in the laboratory.
4. Do only the experiment assigned by the instructor.
5. Wear clothing and shoes that will provide the maximum possible protection.
6. Place personal objects in an area where laboratory experiments will not occur.
7. Never eat, drink, or smoke in the laboratory.
8. Dispose of waste materials in appropriately marked containers.
9. Help keep the laboratory clean at all times.
10. Use a fume hood when directed or necessary.
11. Use good judgement and care when working in the laboratory.
12. Pay attention to the activities occurring in your area and work conscientiously.
13. Read all labels and containers to make certain they contain the appropriate chemicals.
14. Wash hands thoroughly before leaving the laboratory.
15. Avoid touching your face unless you know your hands are clean.
16. Immediately report all physical and chemical injuries to the laboratory instructor.

I have carefully read the discussion of recommended laboratory safety practices and the precautions listed above. I understand their importance in preserving the safety of everyone in the laboratory.

I recognize my responsibility to follow these practices and precautions while I am present in the laboratory.
